## YOUR PROFILING

Personal profiling is the first step in career planning. The purpose of profiling is to understand your current career planning stage. It will help decide your career objective and roadmap. The ultimate aim of the planning is to take you from the current stage of career planning to the optimized stage of career planning. Personal profiling includes information about your current stage, the risk involved and action plan for your career development.

### Current Stage of Planning

#### Confused

**Confused:** You are at the confused stage in career planning. We understand that you are having little idea of career planning, but usually confused among various career options. At this stage, you are looking for proper guidance. Generally, at this stage, your career decisions shall be influenced by friends and parents.

**Risk Involved:** Wrong selection of a career path, career dissatisfaction, and self-interest mismatch.

**Action Plan :** Explore your strengths and weakness > Explore career options > Gather information>Match best suitable option> Early execution.

## RESULT OF THE CAREER PERSONALITY

Personality Assessment will help you understand yourself as a person. It will help you expand your career options in alignment with your personality. Self-understanding and awareness can lead you to more appropriate and rewarding career choices. The Personality Type Model identifies four dimensions of personality. Each dimension will give you a clear description of your personality. The combination of your most dominant preferences is used to create your individual personality type. Four dimensions of your personality are mentioned in this chart. The graph below provides information about the personality type you belong to, based on the scoring of your responses. Each of the four preferences are based on your answers and are indicated by a bar chart.
